

Team USA: While standing on the beach during the Can-Am, I kept hearing people talking about how one individual was hitting the ramp jump as if there was no tomorrow. The crowds were cheering as this individual kept up his total disregard for his own safety and kept the crowd on their feet through out the competition. This individual's showman ship was remarkable, "It was for the Show". This individual's contribution to the event was appreciated by not only the riders and families

watching, but also to the many of spectators viewing this event. even for the first time. He was an true ambassador of the sport. This USA Budweiser / Novi Can-Am photo goes to Mr. "Starvin" Marvin Bulas.

Team Canada: Shelly McCloskey (The Wicked Princess) has, since the beginning of the Budweiser / Novi Can-Am Cup competitions, been a great help in the early organizing of this race and continues to promote it to her fellow Canadians. Her enthusiasm is endless, even after a long day of being Canada's biggest moral booster and cheerleader. Also working at officiating at the Can-Am Cup race, she is always there with a smile on her face and cheering on her fellow Canadians. Shelly this Canadian Budweiser / Novi Can-Am photo goes to you with thanks from the City of Harbor Beach and myself.

Thanks to both of you for attending our event and making it an even better race then the years before. The photos were mailed to each of you.

In closing, the City Of Harbor Beach would like to thank all the people from the world of Watercross Racing who descend upon harbor Beach every year on the third week of July to make this weekend a special time for all who attend.

This years plans are well underway and promises to be even more fun than ever for those who chose to participate.
